

When the annual Sculpture Celebration began in Caldwell County in 1985, few could have imagined the impressive collection we enjoy today.

When Dr. Henry Michaux, a Lenoir native and sculpture professor at the University of South Carolina, envisioned the Sculpture Celebration he hoped to encourage citizens to enjoy an under-utilized park as much as to celebrate sculpture. Collaboration with Parks and Recreation Director Sam Sturgis and Arts Council Executive Director Liza Plaster made the Sculpture Celebration a reality and Caldwell County was on its way toward owning a most remarkable and varied sculpture collection.

*“[This] is small town North Carolina and yet here is a collection of 77 works which have been lovingly assembled for a sustained period of time.”**

Held annually on the first Saturday after Labor Day in J. E. Broyhill Park, this event draws sculptors from across the southeastern United States and is recognized nationally.

The first three pieces of the collection were purchased in 1986. One, the metal “Pig” weather-vane, sits atop the Caldwell Arts Council in Lenoir. Over the years, privately funded acquisitions have been purchased from artists at the celebration. Three pieces are commissioned works.

The Celebration and the permanent collection have been featured in North Carolina’s *Our State* magazine, on a UNC-TV special, noted in the *Orlando Sentinel*, and dubbed by the *Charlotte Observer* as the place “where sculpture reigns.”

A study by Appalachian State University in 2006 confirmed that Caldwell County has the largest collection of permanent public outdoor sculpture of any community of its population in the United States.

In a recent study by the Chamber of Commerce, the collection was identified as a “phenomenal collection of assets” that sets Caldwell County apart from other counties in the region and is a reflection of our history of craftsmanship.

More than half the collection is outdoors for easy access to locals and visitors, and many of the indoor pieces are also accessible, though primarily on weekdays.

CALDWELL ARTS COUNCIL

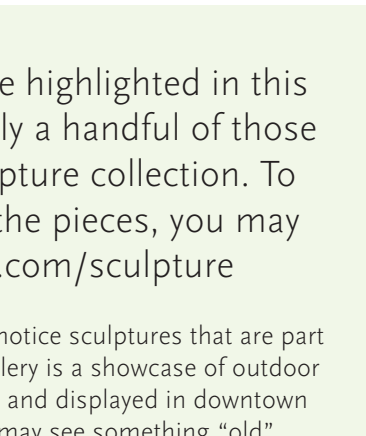

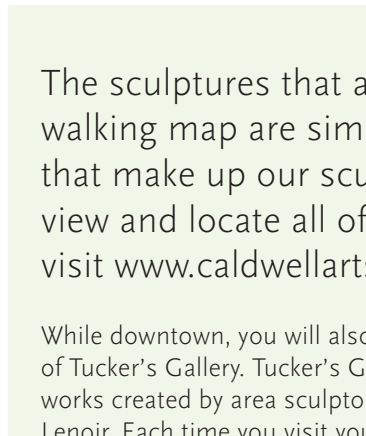

Map Key

- Outdoor Sculpture
- Indoor Sculpture

Tour distance: 2.9 Miles | Approx. 1 Hr.

The sculptures that are highlighted in this walking map are simply a handful of those that make up our sculpture collection. To view and locate all of the pieces, you may visit www.caldwellarts.com/sculpture

While downtown, you will also notice sculptures that are part of Tucker's Gallery. Tucker's Gallery is a showcase of outdoor works created by area sculptors and displayed in downtown Lenoir. Each time you visit you may see something "old" replaced with something new. Many pieces in Tucker's Gallery are purchased by visitors to the gallery. This outdoor gallery is managed by local artists and is not officially affiliated with the Caldwell Arts Council. However, you may call the Caldwell Arts Council for more information at 828-754-2486.

This map was funded in part by a grant from The Unifour Foundation, Inc. A Component Fund of the North Carolina Community Foundation.
